Independent Auditor's Report

To Executive Committee
Southeast Michigan Council of Governments

We have audited the accompanying financial statements of the governmental activities and major fund of Southeastern Michigan Council of Governments as of and for the year ended June 30, 2006, which collectively comprise the basic financial statements as listed in the table of contents. These financial statements are the responsibility of Southeast Michigan Council of Governments' management. Our responsibility is to express opinions on these financial statements based upon our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in financial statements. An audit also includes assessing accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of Southeast Michigan Council of Governments as of June 30, 2006 and the changes in financial position for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and the budgetary comparison schedule are not a required part of the basic financial statements but are supplemental information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it. In addition, the other supplemental information (identified in the table of contents) is not a required part of the basic financial statements. We have applied certain limited procedures, which consisted principally of inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

To Executive Committee
Southeast Michigan Council of Governments

In accordance with *Government Auditing Standards*, we have also issued our report dated September 22, 2006 on our consideration of Southeast Michigan Council of Governments' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide opinions on the internal control over financial reporting or on compliance. The report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Management's Discussion and Analysis

Southeast Michigan Council of Governments' discussion and analysis is intended to assist the reader in focusing on significant financial issues, provide an overview of the Council's financial activity, and identify changes in the Council's financial position and its ability to address the next and subsequent year challenges. It also identifies any material deviations from the financial plan and identifies individual fund issues or concerns. This is a requirement of Governmental Accounting Standards Board Statement No. 34 (GASB 34), *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, and is intended to provide the financial results for the fiscal year ended June 30, 2006. Please read it in conjunction with the Council's financial statements.

Financial Highlights

SEMCOG carries out a wide range of planning and intergovernmental activities related to community and economic development, the environment, and transportation. The largest funding source remains the U.S. Department of Transportation, specifically the Federal Highway Administration and the Federal Transit Administration.

Using this Annual Report

GASB 34 requires the presentation of two types of financial statements: entity-wide financial statements and fund financial statements.

Council wide Financial Statements

The Council-wide portion of the statements provides a perspective of the Council as a whole using the full accrual basis of accounting similar to private sector companies. There are two Council-wide statements: The statement of net assets and the statement of activities.

The statement of net assets combines current financial resources (short-term spendable resources) with capital assets and long-term obligations, regardless if they are currently available or not. Consistent with the full accrual basis method of accounting, the statement of activities accounts for current year revenues and expenses regardless of when cash is received or paid.

Fund Financial Statements

The fund financial statements are reported using the modified accrual method of accounting. Under this basis of accounting, revenues are recorded when received, except where they are measurable and available and therefore represent resources that may be appropriated. Expenditures are accounted for in the period that goods and services are used in the fiscal year. In addition, capital asset purchases are expensed and not recorded as an asset. Debt payments are recorded as expenditures in the current year and future debt obligations are not recorded.

Southeast Michigan Council of Governments has one fund type. The General Fund is used primarily to account for all the revenues the Council receives. Its revenues are derived from state, federal, and other grants, membership dues, and interest.

Southeast Michigan Council of Governments

Management's Discussion and Analysis (Continued)

In addition, the grant specific schedules included in the other supplemental information section of the financial statements are intended to provide a grant specific reconciliation of activities for the benefit of the grantors.

Change in Net Assets	\$ 152,024	\$ 412,668	\$ 260,644

Net assets increased 6.1 percent from a year ago, increasing from \$6.8 million to \$7.2 million.

Southeast Michigan Council of Governments

Management's Discussion and Analysis (Continued)

Unrestricted net assets, the part of net assets that can be used to finance day-to-day operations, increased by \$409,343. This represents an increase of approximately 6.1 percent. The current level of unrestricted net assets stands at \$7,108,990. On a fund basis, the Council has a fund balance of approximately \$6.6 million. This total balance includes approximately \$2.6 million that the Council has designated for fiscal year 2007 local matching obligations and another approximately \$3 million to provide for budget stabilization.

Revenues increased by approximately \$500,000. The increase, which represents 4.4 percent, was primarily due to increased state-administered federal funding. The Council received some new grants during the year as well as increased grant funding for existing Federal Transportation Administration and Federal Highway Administration grants that are passed through from the Michigan Department of Transportation.

Expenses increased by about \$246,000, or 2.2 percent, during the year. The increases were a result of the increased revenue resulting from the passage of the new transportation bill - SAFETEA LU (Safe, Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy for Users).

Our analysis of the Council's major fund begins on page 6.

Budgetary Highlights

The Councils' budget is adopted in total with detail by revenue and expenditure categories provided for additional information.

Economic Factors and Next Year's Budgets and Rates

Next year's budget includes additional spending of transportation funds made available by the passage of SAFETEA LU (Safe, Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy for Users). The budget provides for a limited number of strategic hires and consultant assistance for projects of limited duration and development of technical tools which will be maintained and used for analysis by staff.

Contacting the Council's Management

Southeast Michigan Council of Governments

Notes to Financial Statements June 30, 2006

Note 1 - Summary of Significant Accounting Policies

The accounting policies of the Southeast Michigan Council of Governments (the "Council") conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the Council:

Reporting Entity

The Southeast Michigan Council of Governments is a voluntary association of various counties, cities, townships, villages, and school districts within the seven-county area of Southeast Michigan. The Council was organized in 1968 as an overall organization for coordinating and implementing various area-wide planning functions. The operations of the Council are financed primarily by federal and state grants and membership dues and contributions. The Council does not have the power to levy taxes or issue credit instruments and, accordingly, its operations are dependent upon the amount of voluntary membership dues received which can be used for local matching shares of grant participation programs.

Measurement, Basis of Accounting, and Financial Statement Presentation

The Council's basic financial statements include both the Council's full accrual financial statements and modified accrual financial statements.

Full Accrual Financial Statements

The full accrual financial statements (i.e., the statement of net assets and the statement of activities) are reported using the economic resources measurement focus and the accrual basis of accounting, which is described below. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

The statement of net assets includes and recognizes all long-term assets. The Council's net assets are reported in three parts - invested in capital assets, restricted net assets, and unrestricted net assets.

The statement of activities includes depreciation on long-term assets and eliminates capital outlay expense.

Southeast Michigan Council of Governments

Notes to Financial Statements June 30, 2006

Note 1 - Summary of Significant Accounting Policies (Continued)

Private sector standards of accounting issued prior to December 1, 1989 are generally followed in the full accrual financial statements to the extent that those standards do not conflict with the standards of the Governmental Accounting Standards Board.

Modified Accrual Financial Statements

The Council's modified accrual financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting which is described below.

Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Council considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, the expenditures relating to long-term compensated absences and claims are only recorded when payment is due.

The Council has one fund, the General Fund. The General Fund accounts for all financial resources of the Council.

Financial Statement Amounts

Cash and investments - Cash and investments include cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value.

Capital Assets - Capital assets are defined by the Council as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Assets are recorded at historical cost.

The Council's capital assets consist of computer equipment and office furnishings which are depreciated using the straight-line method over 3 to 5 years. Total historical cost amounted to \$387,729, and accumulated depreciation amounted to \$295,750 at year end. Depreciation expense was \$68,632 for the year ended June 30, 2006.

Compensated Absences (Vacation and Sick Leave) - It is the Council's policy to permit employees to accumulate earned but unused sick and vacation pay benefits. There is no liability for unpaid accumulated sick leave since the Council does not have a policy to pay any amounts when employees separate from service with the Council. All vacation pay is accrued when incurred in the statement of net assets/statement of activities columns.

Southeast Michigan Council of Governments

Notes to Financial Statements June 30, 2006

Note 1 - Summary of Significant Accounting Policies (Continued)

Fund Equity - In the fund financial statements, the governmental fund reports reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

Note 2 - Reconciliation of Individual Fund Columns of the Statement of Net Assets/ Statement of Activities

Net assets reported in the statement of net assets column is different than the fund balance reported in the individual fund column because of the different measurement focus and basis of accounting, as discussed in Note 1. Below is a reconciliation of the differences:

Fund Balance - Modified Accrual Basis	\$ 6,552,135
Amounts reported in the statement of net assets are different because:	
Net value of capital assets used in governmental activities are not financial resources, and are not reported in the funds	91,979
Grant revenue was recorded as deferred revenue for the governmental fund for grant reimbursement receivables that were not received within 60 days of fiscal year end	837,938
Accumulated long-term compensated absences are not included as a liability on the fund statements under modified accrual	<u>(281,083)</u>
Net Assets - Full Accrual Basis	<u>\$ 7,200,969</u>

Southeast Michigan Council of Governments

Notes to Financial Statements June 30, 2006

Note 2 - Reconciliation of Individual Fund Columns of the Statement of Net Assets/ Statement of Activities (Continued)

The change in net assets reported in the statement of activities column is different than the change in fund balance reported in the individual fund columns because of the different measurement focus and basis of accounting, as discussed in Note 1. Below is a reconciliation of the differences:

Net Change in Fund Balances - Modified Accrual Basis	\$ 362,185
---	-------------------

Amounts reported in the statement of activities are different because:

Governmental funds report capital outlays as expenditures; however, in the statement of activities, these costs are allocated over their estimated useful lives as depreciation:

Capital outlay	71,957
Depreciation expense	<u>(68,632)</u>

Subtotal	3,325
----------	-------

Current year change in deferred grant revenue not recorded in the governmental funds as monies are not received within 60 days of fiscal year end	60,578
---	--------

Increase in accrual for long-term compensated absences reported as expenditures in the statement of activities, but not in the fund statements	<u>(13,420)</u>
--	-----------------

Change in Net Assets of Governmental Activities	<u>\$ 412,668</u>
--	--------------------------

Note 3 - Cash and Investments

The Council has designated Comerica Bank and First Independence National Bank for the deposit of its funds. The Council's cash and investments are subject to various types of risks, which are examined in more detail below:

Southeast Michigan Council of Governments

Notes to Financial Statements June 30, 2006

Note 3 - Deposits and Investments (Continued)

Custodial Credit Risk of Bank Deposits

Custodial credit risk is the risk that in the event of a bank failure, the Council's deposits may not be returned to it. The Council does not have a deposit policy for custodial credit risk. At year end, the Council had \$765,850 of bank deposits (certificates of deposit and checking accounts) that were covered by \$200,000 of federal depository insurance. The Council believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the Council evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

Credit Risk

The Council has an investment policy that limits its investment choices. As of year end, the credit quality ratings of debt securities are as follows:

<u>Investment</u>	<u>Fair Value</u>	<u>Rating</u>	<u>Rating Organization</u>
Bank investment pool	\$5,648,452	A-1	S&P

Note 4 - Deferred Revenue

The governmental fund reports deferred revenue in connection with receivables for revenue that is not considered to be available to liquidate liabilities of the current period. The governmental fund also defers revenue recognition in connection with resources that have been received but not yet earned, such as annual dues paid by participating communities at various times throughout the Council's fiscal year. At the end of the current fiscal year, the various components of deferred revenue are as follows:

	<u>Unavailable</u>	<u>Unearned</u>
Unexpired portion of membership and designated management association dues	\$ -	\$ 403,776
Unexpended contributions from Urban Airshed Project, Water Quality Survey, and Rain Gauge	-	110,457
Grant reimbursements requested but not received within 60 days of year end	837,938	-
Unexpended contributions for Orthoimagery Project	-	312,378
Total	<u>\$ 837,938</u>	<u>\$ 826,611</u>

Notes to Financial Statements June 30, 2006

Note 5 - Leases

Operating Leases - The Council leases its office facilities under a seven-year operating lease which expires in 2007. The Council has two renewal options to extend the lease. The first is for an additional three years at market rate and the second option is for an additional five years at market rate. Total costs for the lease were \$764,239 for the current year. The future minimum lease payments for the office facilities are \$761,061.

Note 6 - Risk Management

The Council is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation), as well as medical benefits provided to employees. The Council has purchased commercial insurance for these risks. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

Note 7- Defined Benefit Pension Plan Under MERS

Plan Description - The Southeast Michigan Council of Governments participates in the Municipal Employees' Retirement System (MERS), an agent multiple-employer defined benefit pension plan that covers all full-time staff and strategic part-time staff of the Council.

Benefits vest after eight years of service. Covered employees who retire at or after attaining the age of 60 with eight years of credited service or at the age of 55 with 20 years of credited service are entitled to an annual retirement benefit payable for life, in an amount equal to their average annual compensation for the last three highest consecutive years of employment times an entitled benefit percentage of 2.25 percent for each year of credited service. MERS also provides death and disability benefits. All current retirees are also covered under Benefit Plan E, which provides for a one-time adjustment of up to 2 percent of benefits in recognition of increased living costs. The Benefit Plan E is adopted annually.

MERS issues a publicly available financial report that includes financial statements and required supplementary information for the system. That report may be obtained by writing to the Municipal Employees' Retirement System at 1134 Municipal Way, Lansing, MI 48917.

Funding Policy - There is no obligation for covered employees to contribute to the System.

Notes to Financial Statements June 30, 2006

Note 7 - Defined Benefit Pension Plan under MERS (Continued)

Annual Pension Cost - For the year ended June 30, 2006, the Council's annual pension cost was \$0. The annual required contribution was determined as part of an actuarial valuation at December 31, 2005, using the entry age actuarial cost method. Significant actuarial assumptions used include (a) an 8 percent investment rate of return, (b) projected salary increases of 4.5 percent per year, and (c) 2.5 percent per year cost of living adjustments. Both (a) and (b) include an inflation component of 3 percent. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility over a five-year period.

Other three-year trend information is as follows:

	Actuarial Valuation as of December 3		
	2003	2004	2005
Actuarial value of assets	\$ 21,890,253	\$ 22,819,123	\$ 23,644,213
Actuarial Accrued Liability (AAL) (entry age)	\$ 16,805,791	\$ 17,989,824	\$ 19,077,456
Overfunded AAL (UAAL)	\$ 5,084,462	\$ 4,829,299	\$ 4,566,754
Funded ratio	130%	127%	124%
Covered payroll	\$ 4,288,352	\$ 4,277,471	\$ 4,166,164
UAAL as a percentage of covered payroll	- %	- %	- %

Note 8 - Pension Trust Fund/Defined Contribution Plan

The Council provides pension benefits to all of its full-time staff through a defined contribution plan. In a defined contribution plan, benefits depend solely on amounts contributed to the plan by the Council plus investment earnings. Employees are eligible to participate from the date of employment. As established by the Council, the amount the Council contributes each year, if any, is determined by funds available in the budget. Employees' gross earnings and employee contributions for each employee plus interest allocated to the employee's account are fully vested after five years of continuous service.

The Council's total payroll during the current year was \$3,800,902. The current year contribution was calculated based on covered payroll of \$3,586,523, resulting in an employer contribution of \$110,520.

Note 9 - Commitments for Expenditures from Local Source Revenues

At June 30, 2006, the Council is committed to provide \$2,577,985 during fiscal year 2007 as its local matching share for existing grant participation programs and locally funded activities. This amount has been designated in the June 30, 2006 General Fund balance.

Southeast Michigan Council of Governments

Notes to Financial Statements June 30, 2006

Note 10 - Pass-through Funds

Grant revenues and expenditures include funds aggregating \$1,157,360, passed through the Council from the Federal Transit Administration and the Federal Highway Administration to subrecipient agencies in 2006. As required under the agreements with grantor agencies, the recipient agencies contributed local matching funds aggregating \$341,796.

The costs incurred under these grants are subject to the final closing adjustments of the subrecipient agencies' costs which, if any, should not materially affect the Council's future financial position or results of operations. At the end of the current fiscal year, pass-through funds payable of \$472,680 represent amounts billed to the Council from the various subrecipient governmental agencies but not paid as of that date.

Note 11 - Stewardship, Compliance, and Accountability

Budgetary Information - An annual budget is adopted on a basis consistent with generally accepted accounting principles.

The budget document presents information consistent with the presentation of the actual results within the report.

The budget process begins with the staff developing the SEMCOG Work Program and Budget with input from funding and pass through agencies. The budget is presented to the Finance and Budget Committee for further input. The Finance and Budget Committee forwards the budget to the Executive Committee for concurrence and to the General Assembly for adoption. The budget is adopted in total with detail by revenue and expenditure categories presented for additional information. Throughout the year the actual revenues and expenditures are monitored against this information. Budget to actual information is presented throughout the year to the Finance and Budget Committee and Executive Committee.

Excess of Expenditures Over Appropriations in Budget - During the year, the Council incurred expenditures that were in excess of the amounts budgeted as follows:

	<u>Budget</u>	<u>Actual</u>	<u>Variance</u>
Pass-through match	\$ 267,702	\$ 309,467	\$ (41,765)
Pass-through expenditures	1,121,479	1,157,360	(35,881)

The above-mentioned expenditures in excess of budget were offset by correlating revenues in excess of budget for grant funds that were not originally budgeted for.

Single Audit Report

Independent Auditor's Report

To the Executive Committee
Southeast Michigan Council of Governments

We have audited the financial statements of the governmental activities and major fund of the Southeast Michigan Council of Governments (the "Council") for the year ended June 30, 2006, which collectively comprise the basic financial statements, and have issued our report thereon dated September 22, 2006. Those basic financial statements are the responsibility of the management of the Southeast Michigan Council of Governments. Our responsibility was to express opinions on those basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Southeast Michigan Council of Governments' basic financial statements. The accompanying schedule of expenditures of federal awards is presented for the purpose of additional analysis and is not a required part of the basic financial statements. The information in this schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**Report on Internal Control Over Financial Reporting and on Compliance
and Other Matters Based on an Audit of Financial Statements Performed
in Accordance with *Government Auditing Standards***

To the Executive Committee
Southeast Michigan Council of Governments

We have audited the financial statements of the governmental activities and major fund of the Southeast Michigan Council of Governments (the "Council") as of and for the year ended June 30, 2006, which collectively comprise the basic financial statements, and have issued our report thereon dated September 22, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Council's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Council's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

To the Executive Committee
Southeast Michigan Council of Governments

This report is intended solely for the information and use of the executive committee, finance and budget committee, management, and federal awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.

**Report on Compliance with Requirements Applicable to Each
Major Program and on Internal Control Over Compliance in Accordance
with OMB Circular A-133**

To the Executive Committee
Southeast Michigan Council of Governments

Compliance

We have audited the compliance of the Southeast Michigan Council of Governments (the "Council") with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to its major federal program for the year ended June 30, 2006. The major federal program of the Southeast Michigan Council of Governments is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal program is the responsibility of the Council's management. Our responsibility is to express an opinion on the Council's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Council's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Council's compliance with those requirements.

In our opinion, the Southeast Michigan Council of Governments complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended June 30, 2006.

To the Executive Committee
Southeast Michigan Council of Governments

Internal Control Over Compliance

The management of the Southeast Michigan Council of Governments is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the Council's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the executive committee, finance and budget committee, management, and federal awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.
